

# Porto Water Match

As part of the Enterprise Europe Network, the National Innovation Agency (ANI) will organise the bilateral meetings for the Porto Water Match at the Alfândega do Porto on 27-29 September.

Companies and professionals from the sector thus have the opportunity to learn more about the latest trends in WATER INNOVATION and to find international partners for research, tech and business projects!

This exclusive matchmaking event offers the opportunity to foster meetings between potential business partners in front-to-front meetings, to identify possible transboundary relationships with prestigious specialists in the water sector and also to enable collaboration between globally expanding innovative companies.

Porto Water Match will take place during the EIP Water Conference 2017, the most important water and innovation event in Europe, and the Mayors & Water Conference, which will bring together decision makers, political leaders, public service companies, regulators, representatives of industry and agriculture, researchers, tech companies, startups, SMEs, investors and young professionals.

Topics for discussion will be:

- Water and wastewater processes and treatment
- Solutions for apparent water losses
- Re-use of water and wastewater
- Recycling and management of rainwater
- Water and energy efficiency
- Intelligent water networks
- Instrumentation, analysis and automation
- “Big Data & the Internet of Things”
- Telemetry and telecontrol systems
- Water efficiency
- Financing mechanisms for the water sector

Any company can enrol via the platform available at <https://www.b2match.eu/portowatermatch2017>, even if they are not registered for any of the conferences, and take advantage of this unique opportunity to get to know world renowned companies.
